Updated Resource	Updated Endpoint	Export	Import
Accesses	Get entities from sales pricing access	X	
Accesses	Get entity from sales pricing access by key	X	
Fields	Get entities from related sales pricing access field	X	
Fields	Get related sales pricing access	X	
Fields	Get entities from sales pricing access field	X	
Fields	Get entity from sales pricing access field by key	X	
Access sequences	Get related sales pricing access sequence	X	
Access sequences	Get entities from related sales pricing access	X	
Access sequences	Get entities from sales pricing access sequence	X	
Access sequences	Get entity from sales pricing access sequence by key	X	
Access sequence descriptions	Get entities from related text	X	
Access sequence descriptions	Get related sales pricing access sequence	X	
Access sequence descriptions	Get entities from sls pricing access sequence text	X	
Access sequence descriptions	Get entity from sls pricing access sequence text by key	X	
Batch requests	Send a group of requests		X
Direct activity allocation header	Get entities from activity allocation	X	
Direct activity allocation header	Add new entity to activity allocation		X
Direct activity allocation header	Get entity from activity allocation by key	X	
Direct activity allocation header	Invoke action reverse		X
Direct activity allocation item	Get entities from related item	X	
Direct activity allocation item	Add new entity to related item		X
Direct activity allocation item	Get related header	X	
Direct activity allocation item	Get entities from activity allocation item	X	
Direct activity allocation item	Get entity from activity allocation item by key	X	
Allocation receiver profitability segment	Get related acty allocation	X	
Allocation receiver profitability segment	Get related profitability segment	X	
Allocation receiver profitability segment	Get related item	X	
Allocation receiver profitability segment	Get entities from profitability segment	X	
Allocation receiver profitability segment	Get entity from profitability segment by key	X	
Batch requests	Send a group of requests		X
ATP check data definition	Get entities from rlvt product plant	X	
ATP check data definition	Get entity from rlvt product plant by key	X	
ATP check data definition	Invoke action chklsavaillywithoutresvn		X
ATP check data definition	Invoke action checkavailabilitywithoutresvn	X	
Batch requests	Send a group of requests		X
Backorder processing run	Get entities from advanced backorder processing run	X	
Backorder processing run	Invoke action recheck rqmts by document details		X
Backorder processing run	Invoke action recheck rqmts by prod plant		X
Backorder processing run	Get entity from advanced backorder processing run by key	X	
Batch requests	Send a group of requests		X
Assortment module version: Text	Get entities from assortment module version text	X	
Assortment module version: Text	Add new entity to assortment module version text		X
Assortment module version: Text	Get entity from assortment module version text by key	X	
Assortment module version: Text	Update entity in assortment module version text		X
Assortment module version: Text	Delete entity from assortment module version text		X
Assortment module version	Get related explicit assortment module	X	
Assortment module version	Get entities from related text	X	
Assortment module version	Add new entity to related text		X
Assortment module version	Get entities from explicit assortment module version	X	
Assortment module version	Add new entity to explicit assortment module version		X
Assortment module version	Get entity from explicit assortment module version by key	X	
Assortment module version	Update entity in explicit assortment module version		X
Assortment module version	Delete entity from explicit assortment module version		X
Product exclusion from assortment module for assortment u	Get entities from explicit assortment module for user	X	
Product exclusion from assortment module for assortment u	Add new entity to explicit assortment module for user		X
Product exclusion from assortment module for assortment u	Get entity from explicit assortment module for user by key	X	
Product exclusion from assortment module for assortment u	Delete entity from explicit assortment module for user		X
Assortment module	Get entities from related version	X	
Assortment module	Add new entity to related version		X
Assortment module	Get entities from related exclusion	X	
Assortment module	Add new entity to related exclusion		X
Assortment module	Get entities from explicit assortment module	X	
Assortment module	Add new entity to explicit assortment module		X
Assortment module	Get entity from explicit assortment module by key	X	

Available SAP S/4HANA Private_v4 Cloud APIs

Updated Resource	Updated Endpoint	Export	Import
Assortment module	Delete entity from explicit assortment module		X
Assortment user assignment to assortment module	Get entities from related assortment user	X	
Assortment user assignment to assortment module	Add new entity to related assortment user		X
Assortment user assignment to assortment module	Get entities from explicit assortment module user	X	
Assortment user assignment to assortment module	Add new entity to explicit assortment module user		X
Assortment user assignment to assortment module	Get entity from explicit assortment module user by key	X	
Assortment user assignment to assortment module	Delete entity from explicit assortment module user		X
Assortment user assignment to assortment module	Invoke action update validity		X
Product assignment to assortment module	Get entities from related product	X	
Product assignment to assortment module	Get entities from product to explicit assortment	X	
Product assignment to assortment module	Get entity from product to explicit assortment by key	X	
Product assignment to assortment module	Invoke action replaceproduct		X
Product assignment to assortment module	Invoke action update validity		X
Product assignment to assortment module version	Get entities from related product	X	
Product assignment to assortment module version	Add new entity to related product		X
Product assignment to assortment module version	Get related explicit assortment module version	X	
Product assignment to assortment module version	Get entities from related product to explicit module version	X	
Product assignment to assortment module version	Add new entity to related product to explicit module version		X
Product assignment to assortment module version	Get related product to explicit assortment module version	X	
Product assignment to assortment module version	Get entities from product to explicit assortment module version	X	
Product assignment to assortment module version	Add new entity to product to explicit assortment module version		X
Product assignment to assortment module version	Get entity from product to explicit assortment module version by key	X	
Product assignment to assortment module version	Update entity in product to explicit assortment module version		X
Product assignment to assortment module version	Delete entity from product to explicit assortment module version		X
Batch requests	Send a group of requests		X
Awarding scenario	Get entities from srcg proj awarding scenario	X	
Awarding scenario	Add new entity to srcg proj awarding scenario		X
Awarding scenario	Get entity from srcg proj awarding scenario by key	X	
Awarding scenario	Update entity in srcg proj awarding scenario		X
Awarding scenario	Delete entity from srcg proj awarding scenario		X
Awarding scenario	Invoke action submit for approval		X
Awarding scenario	Invoke action withdraw from approval		X
Awarding scenario	Invoke action cancel		X
Awarding scenario note	Get entities from related srcgprojawardingscennote	X	
Awarding scenario note	Add new entity to related srcgprojawardingscennote		X
Awarding scenario note	Get related srcg proj awarding scenario	X	
Awarding scenario note	Get entities from srcg proj awarding scenario note	X	
Awarding scenario note	Get entity from srcg proj awarding scenario note by key	X	
Awarding scenario note	Update entity in srcg proj awarding scenario note		X
Awarding scenario note	Delete entity from srcg proj awarding scenario note		X
Supplier quotation	Get entities from related srcgprojawardingscenqtn	X	
Supplier quotation	Add new entity to related srcgprojawardingscenqtn		X
Supplier quotation	Get related srcg proj awarding scenario	X	
Supplier quotation	Get entities from srcgprojawardingscenqtn	X	
Supplier quotation	Get entity from srcgprojawardingscenqtn by key	X	
Supplier quotation	Delete entity from srcgprojawardingscenqtn		X
Batch requests	Send a group of requests		X
Bank	Get entities from bank	X	
Bank	Add new entity to bank		X
Bank	Get entity from bank by key	X	
Bank	Update entity in bank		X
Bank address	Get related bank add ress	X	
Bank address	Get related bank	X	
Bank address	Get entities from bank add ress	X	
Bank address	Get entity from bank add ress by key	X	
Bank address	Update entity in bank add ress		X
Scripted addresses	Get related bank	X	
Scripted addresses	Get entities from related bankscriptvariant	X	
Scripted addresses	Add new entity to related bankscriptvariant		X
Scripted addresses	Get related bank add ress	X	
Scripted addresses	Get entities from bank scripted add ress	X	
Scripted addresses	Get entity from bank scripted add ress by key	X	
Scripted addresses	Update entity in bank scripted add ress		X
Scripted addresses	Delete entity from bank scripted add ress		X

Batch requests	Send a group of requests		X
Bulk transport driver	Get entities from oil bulk transport driver	X	
Bulk transport driver	Add new entity to oil bulk transport driver		X
Bulk transport driver	Get entity from oil bulk transport driver by key	X	
Bulk transport driver	Update entity in oil bulk transport driver		X
Bulk transport driver	Delete entity from oil bulk transport driver		X
Transport driver license	Get entities from related bulktransportDrvrlctp	X	
Transport driver license	Add new entity to related bulktransportDrvrlctp		X
Transport driver license	Get related bulk transport driver tp	X	
Transport driver license	Get entities from oil bulk transport driver license	X	
Transport driver license	Get entity from oil bulk transport driver license by key	X	
Transport driver license	Update entity in oil bulk transport driver license		X
Transport driver license	Delete entity from oil bulk transport driver license		X
Bulk shipment transport driver shift	Get entities from related bulktransportDrvrshtftp	X	
Bulk shipment transport driver shift	Add new entity to related bulktransportDrvrshtftp		X
Bulk shipment transport driver shift	Get related bulk transport driver tp	X	
Bulk shipment transport driver shift	Get entities from oil bulk transport driver shift	X	
Bulk shipment transport driver shift	Get entity from oil bulk transport driver shift by key	X	
Bulk shipment transport driver shift	Delete entity from oil bulk transport driver shift		X
Batch requests	Send a group of requests		X
Transport compartment meter	Get entities from oil bulkcompartmentsmtrassgmt	X	
Transport compartment meter	Get entity from oil bulkcompartmentsmtrassgmt by key	X	
Transport compartment meter	Update entity in oil bulkcompartmentsmtrassgmt		X
Transport compartment meter	Delete entity from oil bulkcompartmentsmtrassgmt		X
Transport unit compartments	Get related bulktransportcompts	X	
Transport unit compartments	Get entities from related bulkcompts mtrassgmt	X	
Transport unit compartments	Add new entity to related bulkcompts mtrassgmt		X
Transport unit compartments	Get entities from oil bulk transport compartment	X	
Transport unit compartments	Get entity from oil bulk transport compartment by key	X	
Transport unit compartments	Update entity in oil bulk transport compartment		X
Transport unit compartments	Delete entity from oil bulk transport compartment		X
TD transport unit	Get related transport unit	X	
TD transport unit	Get related transport unit	X	
TD transport unit	Get entities from related bulktransportcompts	X	
TD transport unit	Add new entity to related bulktransportcompts		X
TD transport unit	Get entities from oil bulk transport unit	X	
TD transport unit	Add new entity to oil bulk transport unit		X
TD transport unit	Get entity from oil bulk transport unit by key	X	
TD transport unit	Update entity in oil bulk transport unit		X
TD transport unit	Delete entity from oil bulk transport unit		X
Transport unit master data events	Get entities from related bulk transport unit event TP	X	
Transport unit master data events	Add new entity to related bulk transport unit event TP		X
Transport unit master data events	Get related bulk transport unit	X	
Transport unit master data events	Get entities from oil bulk transport unit event	X	
Transport unit master data events	Get entity from oil bulk transport unit event by key	X	
Transport unit master data events	Update entity in oil bulk transport unit event		X
Transport unit master data events	Delete entity from oil bulk transport unit event		X
Transport unit meters	Get entities from related bulktransportunitmtrassgtp	X	
Transport unit meters	Add new entity to related bulktransportunitmtrassgtp		X
Transport unit meters	Get related bulk transport unit	X	
Transport unit meters	Get entities from oil bulktransportunitmtrassgmt	X	
Transport unit meters	Get entity from oil bulktransportunitmtrassgmt by key	X	
Transport unit meters	Update entity in oil bulktransportunitmtrassgmt		X
Transport unit meters	Delete entity from oil bulktransportunitmtrassgmt		X
Transport unit: Text	Get entities from related transport unit description	X	
Transport unit: Text	Add new entity to related transport unit description		X
Transport unit: Text	Get related bulk transport unit	X	
Transport unit: Text	Get entities from oil bulk transport unit text	X	
Transport unit: Text	Get entity from oil bulk transport unit text by key	X	
Transport unit: Text	Update entity in oil bulk transport unit text		X
Transport unit: Text	Delete entity from oil bulk transport unit text		X
Transport unit events: Text	Get related bulk transport unit	X	
Transport unit events: Text	Get entities from related bulk transport unit event text	X	
Transport unit events: Text	Add new entity to related bulk transport unit event text		X
